Days-to-Close Trend

Insight: Deal Cycles Reached a 6-Quarter High

Finding

Average days to close hit **90.1 days in Q1 2025**, up **75% YoY** from 51.5 days and **66% QoQ** from 54.4 days.

Business Implication

Longer sales cycles delay revenue and increase forecasting uncertainty, while creating more opportunity for deals to stall.

Actionable Recommendation

Introduce **stage-age alerts** and require manager review for deals exceeding **60 days**.

Owner & Timing

- **All 6 Sales Managers** have **~1 week** to configure alerts, with ongoing weekly monitoring.
- **Sarah Chen** to monitor stage-to-stage deals data.
